Rails Girls
Summer of Code

Our team

Nextcloud Conference

Our Challenges

- Installing the Nextcloud server locally not as easy as we first assumed.
- Remembering git commands
- Fought a lot with JavaScript and in particular AngularJS.
- Working remotely over different time-zones

RGSoc - Day #12
<CODEAHOLICS>

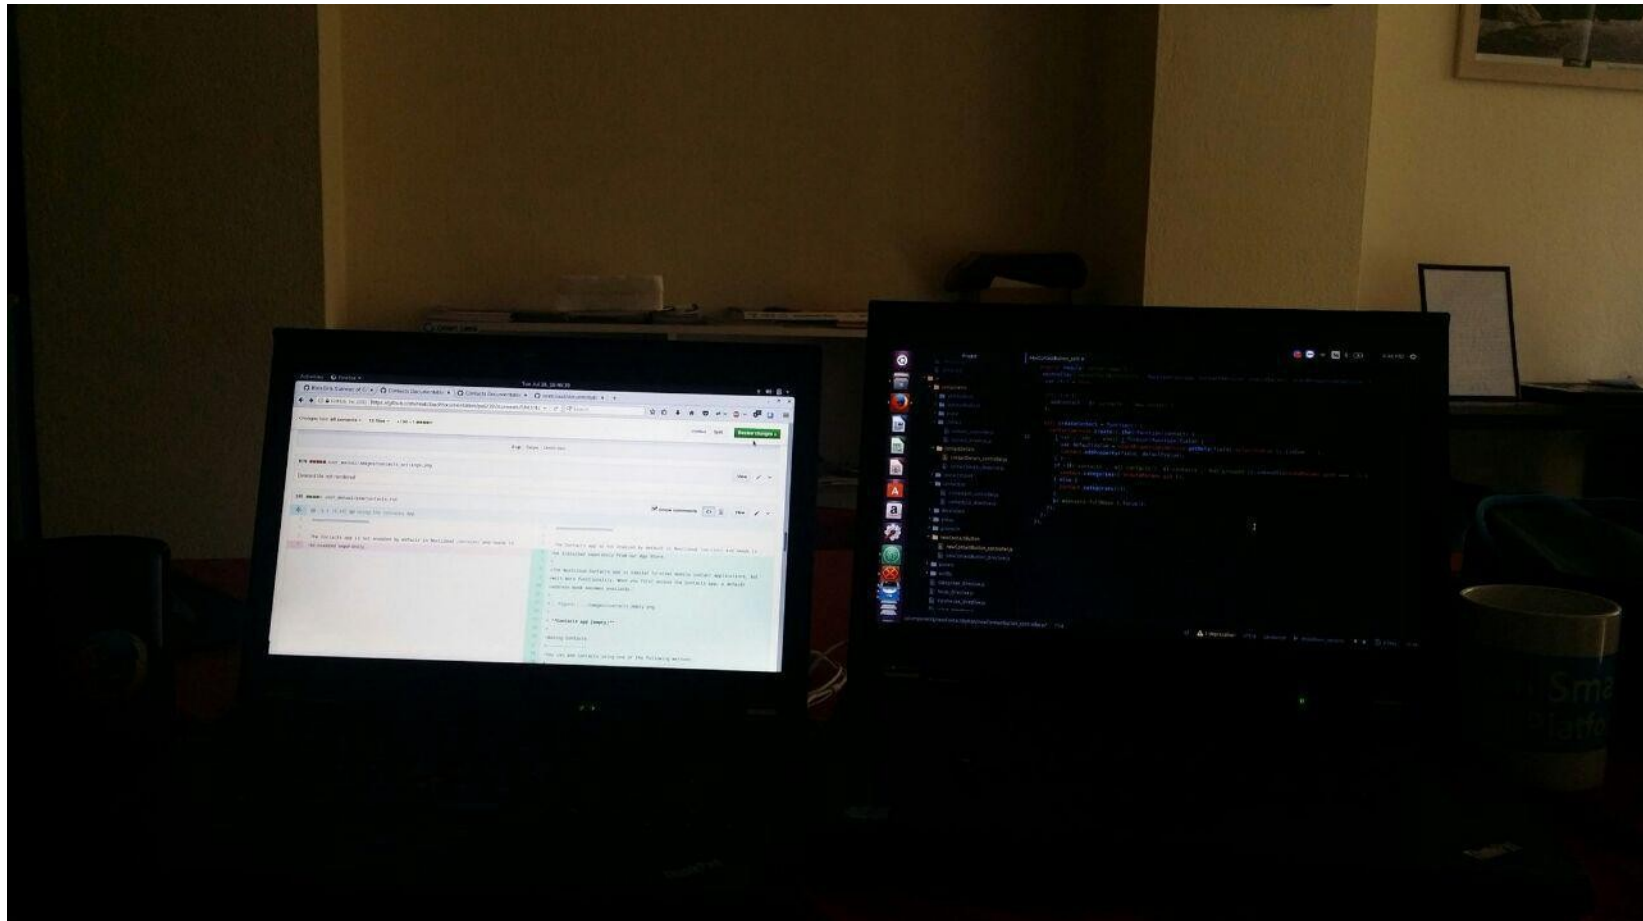

Too much Angular JS
not enough coffee :(

</CODEAHOLICS>

Things we have learned

- Pair programming, a very good way to keep each other on task.
- AngularJS concepts: controllers, services, promises, filters and much more.
- JavaScript is the world's most misunderstood programming language but we understand it better now :).
- vCard format specification.
- New Git Commands

Pair programming

Nextcloud contributions

- “-Fillimi i mbarë, gjysma e punës”- Created our first PR on our first week.
- Fixing some starter issues, opening new issues, testing and reviewing.
- Working on some features.

The new version of the Contacts App is here....

BRACE YOURSELVES

NEW ISSUES ARE COMING

FALEMINDERIT!!!
